

BRING PHILANTHROPIC SUPPORT TO YOUR COMMUNITY

Local priorities. Local Impact

PACIFIC NORTHWEST EMS AFFILIATE NETWORK

Powered by Medic One Foundation

Medic One Foundation is building a network of locally led EMS foundations across Washington — each focused on strengthening the EMS system in its own community.

Affiliates bring together EMS leaders, community partners and local supporters to identify priorities, build philanthropic support and invest in their local system. At the same time, they are part of a connected network that shares ideas, resources and best practices to strengthen EMS across Washington.

WHY THIS MODEL?

Communities across Washington face growing pressures on their EMS systems — from workforce and training needs to equipment, technology and increasing demand.

The EMS Affiliate Network helps communities build sustainable philanthropic support to address locally identified priorities while connecting them to a broader network of EMS leaders and resources.

COULD THIS WORK IN YOUR COMMUNITY?

Your community may be ready to explore an Affiliate if:

- EMS leaders agree on a shared priority for strengthening the local system
- Local leaders are willing to champion and guide the effort
- There is interest in building greater community and philanthropic support for EMS
- Your community is ready to raise awareness and resources around local EMS needs

LOCAL LEADERSHIP. SHARED STRENGTH.

Your community leads the work. The Network helps you go further.

Each Affiliate maintains local governance and sets priorities based on the needs of its own EMS system, while benefiting from the resources, experience and collective strength of a broader EMS network. That distinction is central to the program.

WHAT MEDIC ONE FOUNDATION BRINGS

✓ Startup Investment

Seed funding to launch the Affiliate and support an initial locally identified Signature Initiative.

✓ Tools & Capacity Building

Templates, training, technical support and guidance for planning, fundraising and operations.

✓ Network Leadership

Coordination, convening and opportunities for peer learning and shared resources.

✓ Broader Fundraising Opportunities

Regional and national funding opportunities that can benefit multiple Affiliates and the Network.

WHAT LOCAL AFFILIATES DO

✓ Identify Local Priorities

Work with EMS leaders to identify the needs that matter most locally.

✓ Build Community Support

Engage community partners and build greater awareness and support for EMS.

✓ Raise & Steward Local Resources

Build philanthropic support for locally identified EMS priorities.

✓ Connect & Share

Share ideas, resources and best practices across the Network.

WHAT STAYS LOCAL

Affiliates are locally governed and work alongside EMS leaders and community stakeholders to determine where philanthropic investment can have the greatest impact.

Local Affiliates set their own priorities, build community relationships, raise and steward local funds, increase awareness of EMS and direct resources toward local needs.

LET'S TALK
